Dear Friends,

Our choices, no matter how small or seemingly insignificant, are in reality, cumulative. Added together our choices can make a difference, have an influence, or alter a direction. For 19 years, Butterfly Pavilion has been providing educational opportunities and hands-on connections with some of the smallest but most important species on the planet. We create immersive experiences that connect our guests intimately to nature and help to positively shape the choices we all make regarding the world in which we live.

As a guest, member, supporter, or donor, it is a magnificent time to positively shape the choices we all make regarding the world in which we live.

For 19 years, Butterfly Pavilion has been providing educational opportunities and hands-on connections with some of the smallest but most important species on the planet. We create immersive experiences that connect our guests intimately to nature and help to positively shape the choices we all make regarding the world in which we live.

Patrick Tennyson
President and CEO
Butterfly Pavilion

Butterfly Pavilion has provided nearly 5.5 million visitors with hands-on learning experiences and nearly one million school children have visited Butterfly Pavilion for educational field trips. As we head into our 20th year of existence, we have begun planning for the next 20 years of growth. We are committed to serving as one of Colorado’s most recognized and socially responsible science education facilities.

We have very high expectations, and we continue to make the appropriate investments to ensure our contributions make a difference, have an influence, and alter a direction important to the world in which we live.

I thank you for your continued support and your investment in all that we do!

Sincerely,

Patrick Tennyson
President and CEO
Butterfly Pavilion

Dear Friends,

Our choices, no matter how small or seemingly insignificant, are in reality, cumulative. Added together our choices can make a difference, have an influence, or alter a direction. For 19 years, Butterfly Pavilion has been providing educational opportunities and hands-on connections with some of the smallest but most important species on the planet. We create immersive experiences that connect our guests intimately to nature and help to positively shape the choices we all make regarding the world in which we live.

As a guest, member, supporter, or donor, it is a magnificent time to positively shape the choices we all make regarding the world in which we live.

Mission Impact 2014

Butterfly Pavilion Accomplishments
In the 19 years Butterfly Pavilion has been in existence, we have provided nearly 5.5 million visitors with hands-on educational experiences. Since 2002, Butterfly Pavilion has planted butterfly habitat gardens at 43 senior centers across the Front Range, providing nearly 3,000 seniors with outdoor opportunities and creating more places for native bugs and butterflies to call home.
Butterfly Pavilion delivered the Growing Scientists program for its 11th year, serving 1,500 low income students and families, 61 teachers, and 7 schools.

Scientific Highlights
We imported pupae investing over $80,000 in the sustainable business practice of butterfly farming, which provides a fair trade income to people in the tropics, keeping the rainforest intact and contributing to global conservation efforts. Our Curatorial team made more than 1,000 animal identifications, helping educate the community about the invertebrates in our area.

Education Highlights
• We served 46,913 school children through onsite class visits and outreach programs, helping children learn important concepts like ecosystems and food chains.
• $21,846 was awarded in field trip and class scholarships, helping 10,208 students.
• We led teacher enrichment classes providing 215 professional educators with Colorado State Model Content Standards for the Life Sciences (K-12).
• 367 children enjoyed Butterfly Pavilion camps about bugs, plants, marine life, and more.
• We served 1,758 adults through programs that appeal to the lifelong learner in all of us.
• We had over 46,357 attendees at our free, classroom-based “Spineless Spotlight” programs, providing every visitor with the opportunity to interact with leaders in environmental education.
• Butterfly Pavilion became a SOLE (Students in Outdoor Learning Environments) partner with the Colorado Division of Parks and Wildlife, and served several hundred students and their families with outdoor education programs.
• We developed a new 9-week afterschool program for Centennial Elementary, consisting of three 9-week sessions for K-2 and 3-6 grade students.

Mission
Our mission is to foster an appreciation of invertebrates while educating the public about the importance of conservation of threatened habitats in the tropics and around the world.

Vision
We believe that an appreciation of the environment begins with an appreciation of all living things. Every day we reach the young and old alike about the need for conservation, because with knowledge and empowerment we will protect the world’s natural habitats for generations to come.

In 2014 Butterfly Pavilion became the first stand-alone invertebrate zoo to become AZA accredited!

Our mission is to foster an appreciation of invertebrates while educating the public about the importance of conservation of threatened habitats in the tropics and around the world.

We believe that an appreciation of the environment begins with an appreciation of all living things. Every day we reach the young and old alike about the need for conservation, because with knowledge and empowerment we will protect the world’s natural habitats for generations to come.

We saw nearly 14,500 attendees at our five major public events: Bugs We Love, Bloomapalooza, Insectival, Bug-A-Boo, & Living Lights.

These special events appeal to visitors across a broad spectrum of age groups and demographics while carrying a strong conservation message.

Butterfly Pavilion awarded 210 fellow nonprofit organizations each a donation of four in-kind admission tickets, which equates to $7,980 of support to enhance their fundraising efforts.
Our volunteers provided 20,437 hours of community service, which is the equivalent of 10 full-time employees!

In 2014 we flew 29,672 butterflies and moths and 170 different tropical species.

Colorado Butterfly Monitoring Network increased from 7 sites in 2013 to 47 sites in 2014, a 571% increase. This work identifies butterfly trends and supports educated land management practices.

We installed Plains to Peak native Colorado garden, a previously undeveloped part of Butterfly Pavilion’s landscape. It became a terraced native plant garden, showcasing the state’s diverse and beautiful flora.
In 2014, Butterfly Pavilion’s capital campaign focused on sustainable scholarships to support the Invertebrate Access Fund, the first entry to nature experiences for thousands of high needs children. Butterfly Pavilion’s Invertebrate Access Fund is available to all people in need of financial assistance to attend a program at Butterfly Pavilion. School audiences are the primary recipients of scholarship assistance, and over 10,000 students were supported through reduced or no program costs in 2014. In addition, several children from individual families have attended school break programs through fund assistance. Recipients of these funds have had the opportunity to hold Rosie, walk through a rainforest, touch a sea star, and experience a Colorado ecosystem on the Big Dry Creek Nature trail. They use science process skills like observation and classification, and play games about food chains, predator prey relationships, and much more.

“I saw a lot of cool, cool bugs. My family will have a good, good time there. They will want to come each day. I think you all are so awesome. You all are so nice.”

~ Your friend, Dominique
Over 50% new summer, fall, and winter camps increased revenue by $13,000

Conducted spineless spotlight programs like butterfly release, Ask Rosie, story time, and Rainforest Rambles for 46,000 individual guests

PARTNERSHIPS
• Continued our Growing Scientist program for its 11th year (1,500 low income students and families, 61 teachers, and 7 schools served).
• Became a SOLE (Students in Outdoor Learning Environments) partner with the Colorado Division of Parks and Wildlife. Served several hundred students and their families with outdoor education programs.
• Developed a new 9-week afterschool program for Centennial Elementary: Three 9-week sessions for K-2 and 3-6 grade students.
• Continued our Compass Afterschool program, adding a new middle school component.

Developed and installed
NEW
Interpretive stations and signage at Big Dry Creek and Wings of the Tropics

Provided educational programming for 46,913 school age children

BY THE NUMBERS 2014

Bill Walenczak graduated from Michigan State University with a BS in Landscape Architecture in 1969, served 3 ½ years in the U.S. Coast Guard, then received his MLA (Master of Landscape Architecture) at the University of Michigan. He worked for the City of Southfield in Southfield, Michigan, from January 1985 to March 1990 as the Deputy Director of Parks & Recreation.

In 1990, Bill and his family moved to Westminster, Colorado, where Bill accepted the position of Director of Parks, Recreation, and Libraries for the City of Westminster, where he served until his retirement in May of 2012. He was the recipient of many awards in his field and the City of Westminster received the National Gold Medal in Parks & Recreation in 1991 and 1999 under his leadership.

He also participated in the Westminster Rotary clubs from 1994-present. He has been married to his wife Carolyn for 44 years, and has two sons, Jeff and Matt; a daughter-in-law, Christy; and three grandsons Jack, Luke, & Blake.
