

BUTTERFLY
PAVILION

A SOCIAL STORY FOR GUESTS
**TO GUIDE YOU ON
YOUR TRIP**

I am going to Butterfly Pavilion!

BUTTERFLY PAVILION IS AN
INVERTEBRATE ZOO – A HOME FOR
ANIMALS WITH NO BACKBONES, LIKE
BUTTERFLIES, SEA STARS, AND SPIDERS!

IT IS A FUN & SAFE PLACE.

When I go to Butterfly Pavilion, we are going to walk through the front doors & check in with my friends who work there. They are wearing a name tag and a shirt with a Butterfly Pavilion logo and are here to make sure I have a great time.

If I need a break while I am in the building, there are lots of places I can go.

There is a quiet corner in the back of the playground with comfy chairs and books I can read.

If I need to take a break, I can ask the attendant in the play area to let my adult and me into the lactation room.

There are benches in almost every exhibit that I can use.

I can go to survival – where our spiders and insects live.

I can touch a cockroach. A cockroach is a type of insect.

If I don't want to touch it. I can look at it or hold an insect that isn't alive.

ROSIE THE TARANTULA

I can hold Rosie, who is a tarantula. A tarantula is a type of spider. I may need to wait in line before I get to hold Rosie

If I don't want to hold Rosie, I can look at her or hold a spider that isn't alive but looks like Rosie.

I can go to water's edge - Where our ocean animals live

I can touch the water with my hands.
I can also see the different creatures
that live in the water.

LOOK AT SEA CREATURES

**I can go to wings of the
tropics - where our
butterflies and months live.**

There are a lot of butterflies flying around and sometimes they land on my clothes and body, or they may fly by my face. The butterflies will not hurt me.

Before I go in to Wings of the Tropics. . .

First, I will watch a short video about this area. When I go inside, it is very warm with lots of trees and plants.

When I am ready to leave. I will listen to my friend with a butterfly pavilion shirt and a name tag, and they will help me into the exit vestibule.

I will look at myself in the mirrors to make sure there are no butterflies that have followed me out!

There will be a loud fan that blows on me when I go into that exit vestibule. This fan is to help keep the butterflies in their exhibit, and it will not hurt me.

**I can go to colorado backyard -
and learn about the animals in my
state while having fun playing**

**Before I go play, I will take off my
shoes and place them in a cubby.**

**I can climb up into the tree house.
I can go down the slide!**

**I can take a break from playing to
look at the animals.**

Outside discovery garden and nature trail

I can access these gardens and trails at any point during my visit and can always come back inside.

When i'm done inside, I can go explore gardens and nature trails!

I can look at plants and flowers and meet some native pollinators

I can explore the creek!

TIME TO GO HOME?

I CAN GO TO THE GIFT SHOP IF IT'S OKAY, AND I CAN GET READY TO GO HOME AND TELL MY FRIENDS ABOUT THE FUN TIME I HAD AT BUTTERFLY PAVILION.
