**Butterfly Pavilion Introduces New Habitat Gardening Bootcamp Series
Beginning on February 26**

Participants will learn how to create a pollinator friendly garden, while making a positive impact on their home, neighborhood, community, and environment

What: Butterfly Pavilion is offering a new five-part workshop series, launching on February 26 through September 10, developed and taught by its horticulture, pollinator habitat, and gardening experts to help participants transform their yards into pollinator habitats. Attendees will learn how to help protect pollinators and develop the know-how needed to design, install, and maintain a pollinator-friendly garden!

Why: **Pollinators are essential to our economy, environment, and agriculture. They are needed to sustain our ecosystems, but their populations are in decline. By learning how to create a pollinator-friendly garden, members of our community can help build habitats that support and sustain these important creatures while expressing their creativity through outdoor space.**

Who: Adults who have landscapes (residential or other), are interested in learning about pollinators and habitat, want to express their creativity through outdoor space, and have an interest in sustainability and conservation

Dates: Course begins Sunday February 26

Learn more about dates through September here:

<https://butterflies.org/event/habitat-garden-bootcamp/>

Cost: Non-Member: \$350
Member: \$300

Where: Butterfly Pavilion
6252 W. 104th Ave
Westminster, CO

About Butterfly Pavilion

Founded in July 1995 and accredited by the Association of Zoos and Aquariums in 2014, Butterfly Pavilion is the first accredited, stand-alone, non-profit invertebrate zoo in the world, occupying a 34,000-square foot facility situated on an 11-acre campus provided by the City of Westminster, Colorado. Butterfly Pavilion's mission is to foster an appreciation of butterflies and other invertebrates while educating the public about the need for conservation of threatened habitats in the tropics and around the world.
